ANIMAL SCIENCE

WHAT IS ANIMAL SCIENCE?
Animal science is the study of domestic animals including livestock species (beef, dairy cattle, goats, horses, poultry, sheep and swine) and companion animals. Students study concepts from production through processing and learn about the value associated with livestock, as well as meat and milk produced from those animals.

Animal scientists apply the principles of biological and social sciences to animal nutrition, genetics, reproduction, behavior and health. Livestock production systems, animal management and husbandry, animal products, and much more are part of the study of animal science.

WHY STUDY ANIMAL SCIENCE?
If you have a passion for animals in any realm, you may consider studying animal science. Whether your interest is going to veterinary school to maintain the health of animals, running a ranch, working for an animal health company, working in communications or anything in between, we offer an option that will fit your interests.

FINISH IN 4
For each undergraduate degree program in CASNR, we have prepared example plans of how you may successfully complete your degree plan in four years.

WYATT CATRON
Stilwell, Oklahoma

“The study of animal science is a really broad subject. We cover everything from reproduction, nutrition, genetics and animal husbandry, all the way to business and practical applications.”

Where Do You See Yourself?

- Animal welfare specialist
- Extension educator
- Feed salesperson
- Feedlot operator
- Herd manager
- Livestock producer
- Lobbyist
- Marketing and sales consultant
- Medical doctor/physical therapist/dentist/etc.
- Pharmaceutical representative
- Research scientist
- Equine, genetics, meats, nutrition or reproduction
- Veterinarian

Student Spotlight

COLLEGE OF AGRICULTURAL SCIENCES AND NATURAL RESOURCES
Oklahoma State University
136 Agricultural Hall | Stillwater, OK 74078
405.744.5395 | casnr.okstate.edu | admissions.okstate.edu
The Department of Animal and Food Sciences awarded more than $400,000 in scholarships to undergraduate students in the department this year.

Within animal science, you have the option to select a predefined emphasis area and work with your faculty advisor to customize your plan of study.

**Major Options**

**AGRICULTURAL COMMUNICATIONS DOUBLE MAJOR**
Gain a basic understanding of animal science paired with exceptional communication skills.

**AGRICULTURAL EDUCATION DOUBLE MAJOR**
Combine a foundation in animal science with the know-how to teach others.

**ANIMAL BIOTECHNOLOGY**
Acquire a strong science foundation and learn how innovative technologies are used in animal agriculture.

**BUSINESS**
Understand the financial concepts of animal agriculture and how to apply those concepts efficiently and effectively.

**LIVESTOCK MERCHANDISING**
Acquire skills to promote and merchandise livestock.

**PRE-VETERINARY ANIMAL SCIENCE**
Complete pre-veterinary requirements and obtain a degree in animal science.

**PRODUCTION**
Learn the science and production practices of beef, dairy, goats, horses, poultry, sheep and swine operations for a career in production agriculture.

**RANCH OPERATIONS**
Study ranching and beef cattle production, focusing on cow-calf and stocker management, and forage production including range management.

**FAST FACT**
The department sponsors five judging teams: dairy cattle, horse, livestock, meat and meat animal evaluation. The teams have a combined total of more than 40 national championships – more than any other university in the country.

**HIGHLIGHT**
Animal science students are able to receive valuable hands-on experience at the department’s 15 farms and research facilities encompassing 13,000 acres.

**UNDERGRADUATE RESEARCH OPPORTUNITIES**
The department’s Undergraduate Research Scholars Program provides students with valuable hands-on experience working on cutting-edge research projects side-by-side with faculty, graduate students, research technicians and research unit managers. The program builds a solid foundation in research methods to better prepare students for industry and academic careers in animal or food sciences.

**SCHOLARSHIP DOLLARS**
The Department of Animal and Food Sciences awarded more than $400,000 in scholarships to undergraduate students in the department this year.

Oklahoma State University, in compliance with Title VI and VII of the Civil Rights Act of 1964, Executive Order 11246 as amended, and Title IX of the Education Amendments of 1972 (Higher Education Act), the Americans with Disabilities Act of 1990, and other federal and state laws and regulations, does not discriminate on the basis of race, color, national origin, genetic information, sex, age, sexual orientation, gender identity, religion, disability, or status as a veteran, in any of its policies, practices or procedures. This provision includes, but is not limited to admissions, employment, financial aid, and educational services. The Director of Equal Opportunity, 408 Whitehurst, OSU, Stillwater, OK 74078-1035; Phone 405-744-5371; email: eeo@okstate.edu has been designated to handle inquiries regarding non-discrimination policies: Director of Equal Opportunity. Any person (student, faculty, or staff) who believes that discriminatory practices have been engaged in based on gender may discuss his or her concerns. This publication is printed and issued by Oklahoma State University as authorized by the Vice President for Agricultural Programs and has been prepared and distributed at a cost of $210/1M. 08/18 MM
