GALÁPAGOS ISLANDS ADVENTURE
NREM 4093 ~ Spring Semester Course with I-designation & 10-day study-trip on March 14-23, 2019

SPEND SPRING BREAK AT THE GALÁPAGOS ISLANDS …STRADDLING THE EQUATOR!

- Cruise in style for eight days aboard a first-class catamaran yacht
- Snorkel and observe marine life in idyllic Pacific Ocean coves
- Swim at amazing sandy beaches and explore pristine shorelines
- Hike the stark volcanic landscape across ancient lava flows
- Walk the ground trod by Charles Darwin during his epic HMS Beagle journey
- Experience wildlife up close – sea lions, land and marine iguanas, giant tortoises, sea turtles, blue-footed boobies, the Galápagos penguin, dolphins, frigate birds, flightless cormorants, Darwin’s finches, rays, colorful fish…
- Observe the spectacular “pitch black” night sky with more stars than you can imagine including the Southern Cross constellation

Broaden your natural resource and natural history perspective and earn three International “I” credits in NREM 4093

Private OSU cruise on this boat!

ALL OSU STUDENTS WELCOME!
