The main objective of this course, “Agriculture and Culture of Ireland”, is to supplement the students’ on-campus education with valuable international experience. This program will include 12 days of travel within the Republic of Ireland where exciting lecture/field trips will be conducted. Students will have the opportunity to learn a great deal about agriculture, veterinary medicine, history, and culture of Ireland. The instructor, Dr. Leon Spicer, has made nine trips to Ireland over the past 20 years and knows the country and people very well.

Course Credit Options:

- AG 3803. International Study Tour in Agricultural Sciences and Natural Resources: Ireland (I)
- ANSI 5010. Especial Problems. Independent Study

Estimated Cost:

- Course Program Fee $3,300 (includes lodging, in-country transportation, 2 meals per day, OSU students’ insurance, and other related fees).
- Airfare $1,000 (vary according to reservation date)
- Course Tuition $897
- Personal expenses $300 (suggested)

*All costs are estimated and subject to change
